

New Expanded Web-based Version

ActivityPro Online – Get Connected!

New web-based version of highly acclaimed ActivityPro available soon across Canada.

Included in the new features of the program:

- Web-based format, for ease of setup and ongoing automatic updates
- Connect anywhere, anytime, 7 days a week
- New MDS-RAI friendly report formats include:
 - automatic seven day look-back observation period
 - notations for resident self-directed engagement
 - residents at risk reports (over & under participation; low performance scores)
 - engagement by time of day (morning, afternoon and evening)
- Conduct resident and activity analysis or reports by specific units, or for entire home
- Automatic resident by religion lists
- Identification of veteran or veteran spouse status
- Birthday lists by unit or entire home
- Automatic resident participation lists for annual activities
- Advanced search filters allow specific inquiries and reports
- Low monthly fees– eliminate larger up-front cost
- Previous ActivityPro data retained and transitioned to new format
- Four levels of access – Corporate Admin, Home Admin, Department Staff and Staff
- ActivityPro Online uses virtually unbreakable 128-bit encryption, ensuring connections are secure

The program includes all the essential features and reports available in the original format, such as:

- Empirical evidence-based assessments and resident performance scores
- Resident daily, monthly and multi-month participation reports
- Resident participation in terms of both quality and quantity of engagement
- Ease of determining strategies and program adaptations for resident and program success
- Departmental assessment effectively provides comprehensive CQI report
